WHY SHOULD I ATTEND?

Because there has been a high demand for timber from private lands in Michigan over the past few years. Selling timber from your woodlands can generate income and more importantly harvesting mature trees allows the forest to renew itself.

WHAT WILL I LEARN?

By attending this educational program, you will learn about sustainable management of your forest, how harvesting can help improve your land for other uses, including wildlife and who to contact for professional forestry assistance.

INSTRUCTORS:

This program will be conducted by Russ Kidd, forester from MSU Extension and foresters from other natural resource agencies.

REGISTRATION DEADLINE IS FEBRUARY 20TH, 2012
