

12th Annual Native Plants & Pollinators Workshop & Plant Sale

Hosted by the Emmet Conservation District

Date: Saturday, August 09th 2025

Location: Bear Creek Township Hall, 373 North Division Rd, Petoskey, MI

Native Plants & Pollinators PRESENTATION: 11AM-1PM

(Pre-register by July 29) Presentation Cost: \$5/person

***Native Plant SALE: 1PM-4PM (Pre-orders Due By July 29^d)**

**Extra plants will be available for purchase between 1-4PM. Pre-orders are recommended. You may purchase plants without attending the workshop. Please note, plants are limited based on availability. If plants are not available, we will work with customers to find a suitable substitute or issue a refund.*

Learn about how native plants are important for our pollinators and how to incorporate native plants into your landscaping. We will provide important tips on gardening with native plants with the Vern Stephens, owner of Designs by Nature. DBN specializes in growing hardy, native, species grown from wild-collected seed, which provide important food and habitat for our birds, bees, and butterflies. These Michigan-native perennial plants are perfect for our Northern Michigan climate and will come back year after year to create beautiful, functional gardens.

2025 Plant List – Sale and Registration Form

Wildflowers: \$5.50/Quart

**Single species plug flats (with 38 plugs) may available for special projects. Contact ECD Office for availability.*

Responsibility for survival of plant materials lies with the buyer. District liability ends when plants are picked up by the buyer, or after the specified distribution date. There will be no reimbursement for plants that do not survive. Complaints of plant non-survival will be investigated (if possible) by the Emmet Conservation District to try and determine the cause.

Donations are tax deductible and much appreciated! All proceeds from the plant sales support the work of the Emmet Conservation District.
Thank you for your business and charitable support!
